SUMMARY

I'm a dedicated BCA student with a growing interest in web development and data management. I've worked on academic and group projects that helped me build practical knowledge in C, SQL, HTML, and MS Office tools. I enjoy learning new technologies and finding simple solutions to real problems. My goal is to gain experience in a professional environment where I can contribute and continue improving my technical and communication skills.

EDUCATION

DPG Degree College   Gurgaon, Haryana
BCA, MDU University   *Sep 2023 – Present*

Govt. Boys. Sr. Sec. School   Ayanagar, New Delhi

PROJECTS

Portfolio   Link to Demo

A complete overhaul of my earlier portfolio, rebuilt with a fresh design and optimized performance. It highlights my skills, projects, and contact information in an intuitive layout.

HTML | CSS | JavaScript

Key Features:

- Fully mobile-responsive design for seamless viewing on all devices
- Clean UI/UX with smooth navigation and animations
- Dynamic content sections loaded via JavaScript
- Fast load times with optimized assets
- Semantic HTML structure for accessibility and SEO

Falcon SpaceX Landing Page Clone   Link to Demo

A static landing page inspired by the official SpaceX website, focusing on structuring content with semantic HTML5 and applying custom styling with CSS3.
